Where buyers get their **BEST** deal

It is becoming evident that those who are searching for property are starting their search at Owners Best.

Last year we had the biggest number of buyers registering their property requirements with us and this year we are anticipating even a bigger number.

Owners Best became the trendy place where buyers search and buy their property.

All those who are searching for property know how many sharks there are (out there) ready to take their hard earned money. Buyers are taking good care of their money by buying direct from the owner.

The general comments of the buyers who bought direct were:

▶ **safe... the fact that they are dealing direct with the owner they can ask the owner whatever they want about their property and owners are always glad to answer and explain everything**

▶ direct is transparent... they talk face to face and immediately feel the sincerity of the owners and that there is no hidden agenda

▶ **easy to make appointment to view the property (most owners accept viewings in the evening and even on Sundays)**

▶ they buy at their convenience and nobody will rush them to take a fast decision that they can regret later on

▶ **they like the fact that they are always in control and nobody is controlling or pushing them to a property which is not 100% good for them**

▶ they become friends with the people from whom they buy their home

▶ they get very good deals from the owners

Finding the right property on a silver plate

Nowadays, thanks to Owners Best, buyers can know where is the property and what the property is like before they go to see it. Those who search our website www.ownersbest.com.mt can find out :

▶ A map showing exactly where the property is located... by viewing only properties that are located in streets that they like, buyers will save their and the owners' time.

▶ **Properties are displayed with a lot of photos... buyers will know if the property is finished to their taste.**

▶ A professionally drawn plan of the property measured in both feet and metres together with the measured surface area... buyers will know the exact shape and will also know what furniture can fit in the property before even going to see it.

▶ **A registration form to start receiving email and SMS-alerts for FREE... buyers will receive properties that match their requirements and budget by an SMS or email on their mobile phone. With this system new property on the market will find its prospective buyer !**

▶ The monthly repayment by using the Loan Calculator... buyers will know if they can afford the monthly repayment even before going to a bank

▶ **Know the latest price reduced properties (even alerted with such reductions by SMS and email alerts)**

▶ Find the owner's direct contact number... buyers just call on the properties they like and set an appointment with the owners to view their property

Those home owners who want their property to be in this trendy place where the biggest number of buyers in Malta are, call us on 2149 2299 or 7949 2299 and we will show you how you can easily sell your property direct and fast.
